### SCHLEY IS ATTACKED.

Maclay's History Makes Him Anything but a Hero.

### BOOK IS EXCLUDED.

Secretary of the Navy Forbids It Being Used as a Text Book at Annapolis—Statement from the Author of Book.

Washington, June 20.—The secretary of the navy has decided that the third volume of Maclay's history of the Spanish-American war shall not be used as a text book at the naval academy unless the obnoxious language it contains in characterizing the action of Rear Admiral Schley is eliminated. The secretary says that it would be manifestly improper to have a history containing such intemperate language as a text book for the cadets. He will inform both Commander Wainwright, who is in command of the naval academy, and Mr. Maclay, the author of the history, of his decision.

In this connection the secretary says that the proofs of the entire volume were not submitted to him by the historian. He received only the proofs of the third chapter, that relating to the mobilization of the fleets which obtained a summary of the orders which he, a secretary of the navy, had issued in making the naval preparations for the war. That chapter was satisfactory and he returned to Maclay with an indication of his approval. He says he never saw the account of the battle of Santiago and the criticisms of Rear Admiral Schley until after the book was published. Mr. Maclay was appointed to his present position in the New York navy yard Aug. 23, 1900, having been transferred from the lighthouse service.

### AUTHOR'S STATEMENT.

Maclay Says He Will Revise the Obnoxious Portion, but Not Facts.

New York, July 20.—Edgar S. Maclay replying to the criticism which has been made upon his historical work dealing with Admiral Schley and the navy during the Spanish war, he said in part:

"I did not appreciate at the time I wrote the book that the terms were immoderate and intemperate. It is only recently that it has met with adverse criticism. It is now my intention to revise that portion of the work that deals with the battle of Santiago. But I shall not alter the facts for they are correct. I must first be assured that they are in error. The proofs were submitted to the officers who took part in the battle of Santiago as well as to Secretary Long and received their approval. I should explain that only those portions of the book were submitted to each officer that related to him personally or to the part he took in the battle. The proofs submitted to Mr. Long dealt with that part of the war that concerned him. I have never had any aims against Admiral Schley and I wrote as I did because I believed it to be the truth."

### APPEAL TO PRESIDENT.

General Angus Wants the President to Make an Investigation.

Baltimore, July 20.—General Felix Angus, publisher of the Baltimore American, telegraphed the following to President McKinley over his own signature: "William McKinley, president, Canton, O.: Maclay's history of the navy is the standard in use at the naval academy. In the third volume, just issued, the historian charges Rear Admiral Schley with being a coward, a liar, a catfish, and incompetent and subordinate."

"In an interview, in The American, Maclay, the historian, who is a navy department clerk, classed as a laborer, and attached to the Brooklyn navy yard, says the proof of this third volume, which should have told the most glorious history in all our naval annals were submitted to Secretary Long and Admiral Sampson and approved by them in advance of publication, also that Secretary Long put him in his present position after he had read and approved this scurrilous attack upon Admiral Schley. These proofs were also submitted to Admiral Dewey, who refused to read them."

"If aught were needed to convince any fairminded man that a clique in the navy department has conspired to traduce the hero of Santiago and that the conspiracy was carried into execution while that brave and gallant officer was suffering expatriation in the fever infested coast of South America, this would furnish it."

"Will you, Mr. President, in view of all this, sit quietly by and permit these conspirators to continue their diabolical work? Every justice loving American appeals to you to intervene in the name and for the sake of fair play. Next to

being right all the time, which no man can ever be, the best thing is to find out as soon as possible that you are wrong and right yourself immediately."

### Additional Postoffice Clerks.

Washington, July 20.—Rush of business at El Reno and Fort Sill, O. T., has caused a big gain in the amount of postal business there and the postoffice department has telegraphed authority for the employment of two additional clerks at each of these places.

### WILL GO TO MANILA.

Dry Docks Purchased from Spain Will Have a Long Journey.

New York, July 20.—It is announced that Rear Admiral Bowles, chief constructor of the navy, is taking steps for the transformation of the Spanish drydock in Havana harbor to Subig bay, island of Luzon. Had it not been for Rear Admiral Bowles' foresight, the dock would within another week have been in the possession of New York capitalists who had opened negotiations for its purchase and were making final arrangements for the transfer when the navy department stepped in and bought the drydock.

The route and the distance the dock would be towed are thus stated by the navy department: Havana to Canary islands, 3100 miles; Canary islands to Gibraltar, 700 miles; Gibraltar to Port Said, 1520 miles; Port Said to Aden, 1310 miles; Aden to Colombo, 2130 miles; Colombo to Singapore, 1370 miles; Singapore to Manila, 1386 miles; Manila to Subig bay, 100 miles. Total distance towed, 11,916 miles.

### Mysterious Woman in Black.

New Decatur, Ala., July 20.—A mysterious woman, dressed in rich, black silk, has set the speculators agog. She first went to Hartsell, hired a livery rig and drove out in the country. While here she bought several hundred acres of land in the section being exploited for oil. Leaving there she came up to New Decatur and made other purchases of land in large tracts. The woman told no one her name and refused to be seen by any newspaper men. She bore every evidence of wealth, having a purse filled with bills and gold. She paid for all her purchases it is said, in ready cash. She seems to have bound all persons with whom she did business to secrecy as none of them will talk. The woman is believed to be Mrs. Hetty Green.

### Journalist and Inventor Dead.

Atlanta, July 20.—Colonel B. F. Sawyer, journalist, inventor and distinguished veteran, died here at the age of 58. Colonel Sawyer was of French Huguenot stock, served under Lopez as a filibuster in the Cuban insurrection of 50 years ago and as a colonel of the Twenty-fourth Alabama in the war between the states. Colonel Sawyer was the inventor of the square-bottomed paper bag, of a typesetting machine and claimed he also the invention of a printing press now in general use by large newspapers. He was the editor at different times of two papers in Rome, Ga., and of the Atlanta Commonwealth, which ceased publication many years ago.

### May Not Return.

Little Rock, July 20.—The leave of absence of Judge W. M. Gibbs, United States consul at Tamatave, Madagascar, will expire in about two weeks, and then he will go on to Washington to confer with the president. His term of office will expire next December, and he has been assured that he will be reappointed if he wants it. His family, however, are opposed to his returning to the far away island, and he may decide not to go. None of his family were with him during his long sojourn in Madagascar, his wife being an invalid and his children grown.

### Choctaw Buys a Road.

Little Rock, July 20.—Official announcement is made here that the Choctaw, Oklahoma and Gulf has acquired 22 miles of the Little Rock and Hot Springs Western railroad from Little Rock to Benton. It was also announced that here will be an extension from Benton to Malvern to connect with the Diamond Jo road at Hot Springs, the latter line having been acquired by the Choctaw people some time ago.

### New Power of a Jury.

Fort Smith, Ark., July 20.—Twelve business men constituting a jury in a magistrate's court here declared Coffey Williams not guilty of violating the new anti-gambling law. The defense was that the punishment prescribed by the law was excessive, thereby making it unconstitutional. The jury's deliberations were so short that many were surprised.

### Comptroller Reynolds Dead.

Tallahassee, Fla., July 20.—William H. Reynolds, comptroller of the state of Florida died Friday. He had been president of the senate and was secretary of the constitutional convention. He was a native of Georgia.

### Senator Pugh Improved.

Washington, July 20.—Former Senator Pugh of Alabama, who has been critically ill here, has improved considerably. His physician now believes he has a good chance of recovery.

## THE DAILY EAGLE.

Entered at the postoffice as second  
Class mail matter.

BY CONNELLY & CARNES.

Per Week, 10c. - - Per Month, 40c.

SUNDAY, JULY 21, 1901.

Two young ladies are now editing and publishing the Bartlett News.

The price of petroleum has been cut in Texas and raised in Indiana and Ohio.

It is said the steel trust has agents in the south employing negroes to take the places of the strikers. In Alabama they have found a good deal of skilled labor. Race riots are now likely to be added to other strike disorders.

The Sampson clique are still endeavoring to rob Schley of the honor of the naval battle of Santiago. Their last dirty attempt was made in the pages of a history intended for the naval academy, and they got called down on it good and hard by the Baltimore American.

Senator Chas. A. Culberson has the thanks of The Eagle for an immense, well mounted wall map of the United States and insular possessions. The map sets out in colors the territory of the original thirteen colonies, and shows the territory acquired since then, from whom and when.

The broom corn market is very unsettled. In the great broom corn section of Illinois, the crop is short; a large amount of stock on storage has been destroyed by fire, and it is estimated that the acreage is smaller than last year. The probability, therefore is, that broom corn and brooms will be dearer than they have been in several years.—Farm and Ranch.

## CRISIS ABOUT REACHED.

Turning Point in the Strike Looked for  
at Any Time.

Pittsburg, July 20.—The steel strike has reached the critical stage and developments are expected that will have important bearing on the great struggle. By Monday night the results of attempts of the combine to resume operations at Wellsville and McKeesport will be known and on the success or failure of this, the outcome of the struggle will greatly depend. So far the contending forces appear to have been watching each other, but the statement from J. P. Morgan, has changed the complexion of the situation. It is now realized the combine will not indulge in any further temporizing and a long struggle may be looked for.

At Wellsville, the company is straining every point to get the plant into operation and latest dispatches from there state they claim they will have a full force at all furnaces in a day or so. It is said they have men imported from Pittsburg and will bring them to work. A large number of railroad tickets from here to Wellsville have been purchased within the last few days, which are reported to be for a new force. At Wellsville, no men have as yet applied but it is reported they are quartered at East Liverpool and will be moved from there by Monday morning.

The strikers at Wellsville are watching all incoming trains and it is now hoped no trouble will take place when the new men arrive. The strikers are said to be restive and what may happen when they see the new men come in to take their places, it is difficult to predict. A high fence surrounds the mill property and car loads of lumber have been taken into the mill presumably for the purpose of housing the new men within the mill.

At McKeesport a force of men are still at work cleaning up Dewees and Wood's plant for early operations. It is said that sheet mills 8 and 9 and the bar mills have been completely overhauled and are ready for resumption at any time. While it is not known positively when work will be started, it is generally believed it is the intention of the management to start in a few days. They have quite a number of men as a nucleus of the force who were refused admission to the Amalgamation association because they worked during the strike last April, and when a start is made it will be with these workmen.

Manager Cooper refused to say when the start will be made, but he added: "When it does come you can bet the mill will be nonunion."

The Amalgamation association officials say they have little fear of the company inducing the men to go back or to successfully resume operations.

### NOTICE! NOTICE!

I will call on all parties who are indebted to the Bryan Water, Ice Light and Power Co. before the 25th of the present month, and will expect payment in full of all dues. We owe debts that must be paid, and cannot do so unless our patrons pay up. We have been exceedingly indulgent, but we need money now, and must have it, and hope we will not be compelled to resort to other means of collecting.

W. H. Harman, Supt.

## SOUTHERN EXPORTS.

They Make up a Third of Those of  
the Whole Country.

### COTTON IN THE LEAD

The Increase of Export on That Staple  
Over the Preceding Year Ex-  
ceeds Eighty-Nine Million  
Dollars—Other Exports.

Baltimore, July 20.—Of the \$1,400,352,368 worth of domestic merchandise exported from the United States during the fiscal year just closed the cotton of the south represented more than \$313,000,000. The increase in the value of these exports over the preceding year was \$58,588,095. Of this cotton represented \$71,817,413. The Manufacturers' Record points out this week that not only was there this great increase in the value of cotton exports, but that there was an increase by more than 400,000 bales in the quantity exported. These figures are a fair indication of the great part played by the south in the commerce of the country.

When to cotton are added cotton oil and cottonseed cake, lumber, naval stores, phosphate rock, pig iron, steel rails, petroleum, cattle and hogs, breadstuffs and other products of southern origin, it is easy to believe that the complete statistics will show that of the products exported at least one-third were sent by the south, and possibly more than a third passed outward by the southern ports.

While the south exported more than 6,500,000 bales and sent nearly 2,000,000 to northern mills, it kept for its own mills at least 1,400,000 bales, and while there has not been as much activity in new mill undertakings as in the preceding 18 months, mills have been built and still being made for others and for improvements in existing ones.

Among such undertakings are the doubling of the capacity of the Enfield, N. C., Knitting mill; an increase by \$100,000 of the capital of the Nantuxet mills at Spray, N. C., for the purpose of enlarging its building and increasing the number of spindles; the doubling of the Harmony Grove, Ga., mill; the installation of 1000 more spindles in the Strickland cotton mills at Valdosta, Ga., and an increase in the the capital stock of the Easley, N. C., cotton mills in order to make improvements, while a survey of the Appomattox river between Petersburg and Farnville, with a view of developing water power squints toward the establishment of more mills in Virginia.

The value of the south's magnificent water powers has received practical recognition in the plans for its utilization in Virginia, the Carolinas, Georgia and Alabama, but there is much of such power still going to waste. When in this connection are considered the latent resources in oil and the immense coal deposits still to be worked, it is obvious that the south will have no shortage in this respect for many centuries. Still the search for petroleum is being pushed with unabated vigor, not only in Texas, Kentucky and West Virginia, but in Florida, Virginia, Tennessee, Alabama and other states.

Other industrial undertakings of importance are as follows:  
Arkansas—A \$100,000 cotton compress at Little Rock, a \$110,000 cotton compress at Helena, a 25 ton ice plant at Bentonville.

Alabama—Twelve new compresses in the northern part of the state, a 10-ton ice plant at Courtland, a stove mill at Hartselle.

Florida—A planing mill and novelty works at Jacksonville, a 100-ton cotton oil mill at Jacksonville.

Georgia—A furniture and trunk factory at Macon, a pottery and firebrick works at Dalton, a mill to manufacture paper from cotton seed hulls at Columbus.

Kentucky—Firebrick works at Fullerton, the organization of a company to build a railroad from Madisonville to Dawson Springs and to develop coal lands along the route.

Mississippi—The installation of additional machinery to the value of \$30,000 in a lumber mill at Ora, the doubling of the capacity of the ice plant at Laurel.

North Carolina—A plant at Thomasville to make machinery for chair and furniture factories. A \$100,000 lumber company at Manchester, a furniture factory at North Wilkesboro, a handle factory at Tryon.

Tennessee—A meat packing and cold storage plant at Knoxville, a flour mill at Ashwood.

Texas—A \$175,000 power house for the Galveston Street Railway company, a machine shop at Lockney, a wood-working factory at La Porte, a flour mill at Whitewright.

Virginia—Development of coal lands in Frederick county, woodworking factory at Norfolk, stove mill at Oriana.

West Virginia—Development of coal mines at Boury and Elkhorn, the erection of a tin plate plant and a steel plant at Clarksburg, a cannery at Charlestown.

### Brewers Strike.

New Orleans, July 20.—One hundred and thirty skilled men in a majority of the breweries here are on a strike. Their fight is principally for recognition of their union. Brewers say their business will not be seriously affected for the present.

There will be a barbecue and basket picnic on the Bryan and Macy road in Capt. Robt. Hudspeth's pasture 12 miles north of Bryan, Thursday, August 8, 1901. Everybody is invited to come and bring well filled basket.

**WANTED**—Five hundred and thirty-five good straight post oak posts eight and one half feet long delivered on grounds of Central Texas Fair Association. Leave bids at office of Moore & Dyer, Bryan, Texas. Paul Bradley, Chairman Building Committee.

The Ladies Aid Society of the Baptist church will have booths on the fair grounds, from which they will sell different kinds of fancy works, and also refreshments during the Central Texas Fair which will be held in November. 195

Mr. Bird is an artist in his profession and displays rare ability as an impersonator. He is especially fine in tragedy. He was received with hearty applause at every appearance. Granbury Democrat. 96

The ladies of the Presbyterian church will have cakes on sale at the residence of Mrs. Ed. S. Derden on Saturday, July 20th from 9 a. m. until 5 p. m. 97

Franklin Bros. keep as many as 10 or 12 cattle in the cold storage and use nothing under four days in refrigerator. 200

Three hundred yards of taffeta 25 to 27 inches wide is on sale at Norwood's at 75, 85 and 98 cents per yard. 198

**FOR RENT**—A neat five room cottage in the southern part of town. Apply to Mrs. Dr. Jas. R. Johnson. tf

Capt. S. M. Derden showed the Eagle reporter a copy of the Palestine Advocate containing two letters written in 1831 and 1832 by Wm. F. Dorsey to Frank Roberts at Palestine. The first of the letters was written from Mesilla, Arizona, and the last from El Paso. The letters give a good description of the country and the movements of troops in that locality. Capt. Derden's name is mentioned in both the letters. He was soldiering with the writer at the time.

### The Deadly Oil Can.

Madisonville, Tex., July 17.—There was a fire in Madison county five miles east of here on July 16th. While cooking dinner a 5-gallon can of oil exploded, burning the residence of Mr. Dave Barrett, a well known citizen of this county. Miss Amanda was burned badly; no chance to live. Mr. Barrett's hand was burned bad by running through the flames to save his daughter and his son Conrad's hand was burned by trying to save house. Nearly all the furniture was saved. The loss of property was about \$550 but the loss of the house would be nothing if the poor girl could be saved.

### Benefit Concert.

Mr. T. H. Bird, a skilled elocutionist, will give a concert of unusual attractiveness at the opera house Monday night, July 22, benefit Baptist church. Mr. Bird will be assisted by about 35 Bryan girls, in a highly spectacular program that is bound to afford a great deal of amusement. Prof. Bird comes highly recommended, and the concert includes much that is laughable, and much that is beautiful and instructive. You cannot afford to miss it. Admission, 25 and 35 cents, children 15 cents. 97

### To Whom it May Concern.

We find upon investigation that some of our patrons turn their water on at 4 or 5 o'clock each evening and permit the water to run until 9 or 10 o'clock at night, and frequently all night, causing a useless and extravagant waste, for which they do not pay and the company cannot afford to lose, and frequently cause a great deal of inconvenience to those who do not abuse their privilege. Some parties waste more water in one night than they pay for a month's service. The rules require the hose to be held when the water is turned on and cut off when through and under no circumstances be permitted to run when not held. We will cut off the service of those who abuse their privilege and no questions will be asked from this date. Call at office and get copy of rules. 99 B. W. I. L. & P. Co.

### QUESTION ANSWERED.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers' and grandmothers' never thought of using anything else for Indigestion or Billionsness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Get Green's Prize Almanac. For sale by Wilson-Jenkins Drug Co.

## TEXAS NEWS.

### Victim of His Own Device.

Brenham, Tex., July 20.—Dan Bartlett has kept the Central pumping station, two miles east of here, for many years. He lives alone, and when business calls him to town he walks by the way of the Central track. Mr. Bartlett has been very much annoyed lately by having his home broken open and groceries stolen during his absence. His skill as a detective has been fruitlessly used to detect the persons who have been robbing his house, and as a last resort he concluded Thursday evening when business called him away to set a gun. This he did. He was detained in town until a late hour at night, went home hurriedly, forgot all about having set the gun, and unlocked and pulled the door open, which discharged the gun, the whole charge taking effect in his right leg, inflicting a very painful wound.

### Texas Crop Prospects.

Austin, July 20.—State Commissioner of Agriculture Johnson says that the crop situation in Texas generally speaking, is very good. In Brown, Coleman and other counties of that section rain is badly needed. The drouth has also cut short the corn crop in the black waxy belt, which extends from McLennan county to Paris. The cotton and corn in the Brazos river bottom and adjacent territory are in fine condition, and the prospects for a big yield of both products are very promising.

### Overcome by Well Damp.

Hearne, Tex., July 20.—A negro, Robert Chadwick, while being lowered into a well was overcome by well damp. Another negro was lowered into the well to bring the remains to the surface but was overcome and was some time before he revived.

### Killed by Lightning.

Troupe, Tex., July 20.—While Nick White, a negro, and his son were cutting saw stocks three miles from Troupe, lightning struck the tree they were cutting, killing the old man instantly. The boy had walked away a few steps and was not injured.

### Accidentally Killed.

Paris, Tex., July 20.—Tommy Lyons, 20 years old, the son of a Baptist preacher of this county living a mile east of Garrett's Bluff, near Caddo, I. T., was accidentally shot and killed while hunting by a companion.

### Receiver for a Railroad.

Jackson, Miss., July 20.—New Orleans attorneys filed an application in the federal court here for a receiver for the New Orleans and Northwestern road and asking also a foreclosure of a \$2,000,000 mortgage executed in 1890 to the Central Trust company of New York on which \$350,000 is now due. Default was made on the bond in 1898, and the foreclosure is asked for the protection of the bondholders. The road has very little mileage in Mississippi but connects Natchez, Miss., with Rayville, La. The Goulds are recent purchasers of the road and it is thought they are behind these proceedings as the first step in the formal transfer of the property.

### Negroes for Strikers Places.

New Orleans, La., July 20.—Two representatives of the steel trust, officially known as the United States Steel corporation from Pittsburgh, are here securing negroes to take the places of the strikers in the Eastern steel mills. They are placing agents in every southern center. A man will be dispatched to Galveston at once to work the Houston and surrounding territory. Fifty negroes were enlisted in this city Friday. They got 25 at Bessemer, Ala., and 15 at Anniston, Ala. The agents are offering flattering prices.

### Over Ninety Thousand Registered.

El Reno, O. T., July 20.—When the registration booths closed Friday night 92,599 home seekers had been given slips entitling them to a chance in the drawings. Friday's figures for El Reno were 10,339, making a total of 70,497, while 1447 persons registered at Lawton, bringing the total for that place up to 22,102.

### Death Among the Wires.

Dallas, July 20.—Charles Wheeler a lineman in the employ of the Standard Light and Power company, was killed while at work at the top of a 30-foot pole here Friday afternoon. He was with a companion on the pole and was standing on the transformer when his hand came in contact with a wire overhead, carrying a current of 230 or 3000 volts. Death was instantaneous.

### Oil Causes Excitement.

Knoxville, July 20.—A report from Friendsville, a little village in Blount county, founded years ago by the Quakers, says the entire people are wildly excited over the finding of oil on a farm. The oil was struck at a depth of 46 feet and is said to be of fine quality. The well is not a gusher, but the oil flows rapidly.

### Causes Unrest.

Tien Tsin, July 20.—Considerable unrest is felt here following the resumption by the Chinese of the partial control of the city. The natives are cutting their telegraph lines outside of Tien Tsin and fears of further violence is entertained.

### Died After Being Robbed.

Wichita, Kas., July 20.—After being robbed on a train near here, F. R. Smith, an aged man from Bonham, Tex., dropped dead in a crowded coach. The body was taken to Oklahoma City. His wife and daughter were with him.

### Convict Brains a Foreman.

Jeffersonville, Ind., July 20.—E. S. McHale, foreman in the shoe department of the state penitentiary here, was fearfully beaten by Lee Kelly, a convict. Kelly brained the foreman with a piece of shuffling.

## OFFICERS AMBUSHED.

### Moonshiners Kill Two of a Posse and Badly Wound Another.

Nashville, July 20.—A party of revenue officers was ambushed by moonshiners about six miles from Monterey, in Putnam county, at 4 o'clock this morning and two were killed and one badly wounded.

A posse of six was led by Deputy Collector Bell and as they were creeping along the steep hillside above the illicit still they received an order to throw up their hands. They had barely located the speaker 40 feet below when a deadly volley from eight guns was poured upon them.

Deputy Marshal Thomas Price was instantly killed and possemen Cord and Mackey badly wounded.

The officers returned the fire but the moonshiners made the place so hot that Collector Bell and the survivors retired and carried Mackey with them.

One moonshiner was heard moaning and calling to friends that he had been mortally wounded.

Collector Bell has organized a posse and started to recover the body of Price.

## ANOTHER RECORD BROKEN.

### Lad Makes a Trip Around the World in Sixty Days.

Chicago, July 20.—Charles Cecil Fitzmorris, the 17-year-old Chicago school-boy, who was one of three lads sent out by W. R. Hearst, the newspaper man, in an attempt to break the record for a trip around the world, arrived here at 6:55 o'clock this morning in time to break the previous records made by George Francis Train and Nelhe Bly. He made the trip of 20,545 miles in exactly 60 days, 13 hours and 29 minutes, winning easily from his competitors sent out from New York and San Francisco. The time given includes delays and stops equal to about six days.

Some of the longer stages of his journey were made as follows: Chicago to New York, 900 miles, 25 hours; New York to Queenstown, 2250 miles, 5½ days; Moscow to Irkutsk, by rail, 3800 miles, nine days; M. Stikla to Khabarovsk, by steamer, 1100 miles, seven days; Vladivostok to Yokohama, by steamer, 650 miles, five days; Yokohama to Victoria, by steamer, 4114 miles, 11 days, and Seattle to Chicago, 2300 miles, 3½ days.

## ST. HELENA PRISONERS.

### Only Seventeen Per Cent Are Boers, the Remainder Are of All Nations.

New York, July 20.—The British steamship Reading, fresh from Ascension and St. Helena is now at Jersey City.

"There are just 4700 Boer prisoners on the island," said the Reading's commander, Captain Fishley, "and of these 17 per cent are Transvaalers and Orange Free Staters. The remaining 83 per cent is made up of other nationalities in this order: Scandinavians, Germans, Italians, a few Russians, Irishmen and even Englishmen, a handful of Scotchmen, a few Americans, a few Greeks, and scatters from other nationalities.

"The farmers are complaining because the governor has impressed the surplus labor for work on the breakwater. A large number of Boer prisoners are also employed on the breakwater at five shillings a day. Some do not choose to work, others labor for the farmers and the older prisoners whittle out toys, which they sell.

"General Cronje is also weary of his detention, but says little. I was told that the proportion of native Boers was representative of their entire army."

### Fear the Examination.

Washington, July 20.—The only door through which enlisted men of the navy may enter the service as commissioned officers is that by which warrant officers, passing successfully the examination given in substance below, can obtain commissions as ensigns. Applications to take the examination will be received up to July 30. So far only two warrant officers have put in their applications. The hesitancy of the men is said to be due to fear of the examination which a statement given out by the navy department, shows the general scope of the examination, includes a knowledge of naval charts and reckoning, engineering, seamanship, construction of steel vessels and relation of their parts to one another, gunnery, including a description of mechanical electricity and military law.

### Girl Whipped in Court.

Kansas City, July 20.—For the first time since the "whipping post" has been established, Justice Walls had a girl whipped in his court here. Before this the lash had been used on boys only. The girl's mother and her lawyer both asked to have the girl whipped rather than sent to jail. Finally the judge yielded and the mother gave her child the best whipping she has had for some time. It was, however, so the mother states, only a forerunner of what was to come. The girl is 12 years old and had stolen \$3.

## SCHLEY IS ATTACKED.

Maclay's History Makes Him Anything but a Hero.

## BOOK IS EXCLUDED.

Secretary of the Navy Forbids It Being Used as a Text Book at Annapolis—Statement from the Author of Book.

Washington, June 20.—The secretary of the navy has decided that the third volume of Maclay's history of the Spanish-American war shall not be used as a text book at the naval academy unless the obnoxious language it contains in characterizing the action of Rear Admiral Schley is eliminated. The secretary says that it would be manifestly improper to have a history containing such intemperate language as a text book for the cadets. He will inform both Commander Wainwright, who is in command of the naval academy, and Mr. Maclay, the author of the history, of his decision.

In this connection the secretary says that the proofs of the entire volume were not submitted to him by the historian. He received only the proofs of the third chapter, that relating to the mobilization of the fleets which obtained a summary of the orders which he, a secretary of the navy, had issued in making the naval preparations for the war. That chapter was satisfactory and he returned to Maclay with an indication of his approval. He says he never saw the account of the battle of Santiago and the criticisms of Rear Admiral Schley until after the book was published. Mr. Maclay was appointed to his present position in the New York navy yard Aug. 23, 1890, having been transferred from the lighthouse service.

## AUTHOR'S STATEMENT.

Maclay Says He Will Revise the Obnoxious Portion, but Not Facts.

New York, July 20.—Edgar S. Maclay replying to the criticism which has been made upon his historical work dealing with Admiral Schley and the navy during the Spanish war, he said in part:

"I did not appreciate at the time I wrote the book that the terms were immoderate and intemperate. It is only recently that it has met with adverse criticism. It is now my intention to revise that portion of the work that deals with the battle of Santiago. But I shall not alter the facts for they are correct. I must first be assured that they are in error. The proofs were submitted to the officers who took part in the battle of Santiago as well as to Secretary Long and received their approval. I should explain that only those portions of the book were submitted to each officer that related to him personally or to the part he took in the battle. The proofs submitted to Mr. Long dealt with that part of the war that concerned him. I have never had any aims against Admiral Schley and I wrote as I did because I believed it to be the truth."

## APPEAL TO PRESIDENT.

General Angus Wants the President to Make an Investigation.

Baltimore, July 20.—General Felix Angus, publisher of the Baltimore American, telegraphed the following to President McKinley over his own signature: "William McKinley, president, Canton, O.: Maclay's history of the navy is the standard in use at the naval academy. In the third volume, just issued, the historian charges Rear Admiral Schley with being a coward, a liar, a catfish, and incompetent and subordinate."

"In an interview, in The American, Maclay, the historian, who is a navy department clerk, classed as a laborer, and attached to the Brooklyn navy yard, says the proof of this third volume, which should have told the most glorious history in all our naval annals were submitted to Secretary Long and Admiral Sampson and approved by them in advance of publication, also that Secretary Long put him in his present position after he had read and approved this scurrilous attack upon Admiral Schley. These proofs were also submitted to Admiral Dewey, who refused to read them."

"If aught were needed to convince any fairminded man that a clique in the navy department has conspired to traduce the hero of Santiago and that the conspiracy was carried into execution while that brave and gallant officer was suffering expatriation in the fever infested coast of South America, this would furnish it."

"Will you, Mr. President, in view of all this, sit quietly by and permit these conspirators to continue their diabolical work? Every justice loving American appeals to you to interfere and the name and for the sake of fair play. Next to

being right all the time, which no man can ever be, the best thing is to find out as soon as possible that you are wrong and right yourself immediately."

## Additional Postoffice Clerks.

Washington, July 20.—Rush of business at El Reno and Fort Sill, O. T., has caused a big gain in the amount of postal business there and the postoffice department has telegraphed authority for the employment of two additional clerks at each of these places.

## WILL GO TO MANILA.

Dry Docks Purchased from Spain Will Have a Long Journey.

New York, July 20.—It is announced that Rear Admiral Bowles, chief constructor of the navy, is taking steps for the transformation of the Spanish drydock in Havana harbor to Subig bay, island of Luzon. Had it not been for Rear Admiral Bowles' foresight, the dock would within another week have been in the possession of New York capitalists who had opened negotiations for its purchase and were making final arrangements for the transfer when the navy department stepped in and bought the drydock.

The route and the distance the dock would be towed are thus stated by the navy department: Havana to Canary islands, 3100 miles; Canary islands to Gibraltar, 700 miles; Gibraltar to Port Said, 1520 miles; Port Said to Aden, 1310 miles; Aden to Colombo, 2130 miles; Colombo to Singapore, 1270 miles; Singapore to Manila, 1336 miles; Manila to Subig bay, 100 miles. Total distance towed, 11,916 miles.

## Mysterious Woman in Black.

New Decatur, Ala., July 20.—A mysterious woman, dressed in rich, black silk, has set the speculators agog. She first went to Hartsell, hired a livery rig and drove out in the country. While here she bought several hundred acres of land in the section being exploited for oil. Leaving there she came up to New Decatur and made other purchases of land in large tracts. The woman told no one her name and refused to be seen by any newspaper men. She bore every evidence of wealth, having a purse filled with bills and gold. She paid for all her purchases it is said, in ready cash. She seems to have bound all persons with whom she did business to secrecy as none of them will talk. The woman is believed to be Mrs. Hetty Green.

## Journalist and Inventor Dead.

Atlanta, July 20.—Colonel B. F. Sawyer, journalist, inventor and distinguished veteran, died here at the age of 58. Colonel Sawyer was of French Huguenot stock, served under Lope de as a filibusterer in the Cuban insurrection of 50 years ago and as a colonel of the Twenty-fourth Alabama in the war between the states. Colonel Sawyer was the inventor of the square-bottomed paper bag, of a typesetting machine and claimed he also the invention of a printing press now in general use by large newspapers. He was the editor at different times of two papers in Rome, Ga., and of the Atlanta Commonwealth, which ceased publication many years ago.

## May Not Return.

Little Rock, July 20.—The leave of absence of Judge W. M. Gibbs, United States consul at Tamatave, Madagascar, will expire in about two weeks, and then he will go on to Washington to confer with the president. His term of office will expire next December, and he has been assured that he will be reappointed if he wants it. His family, however, are opposed to his returning to the far away island, and he may decide not to go. None of his family were with him during his long sojourn in Madagascar, his wife being an invalid and his children grown.

## Choctaw Buys a Road.

Little Rock, July 20.—Official announcement is made here that the Choctaw, Oklahoma and Gulf has acquired 22 miles of the Little Rock and Hot Springs Western railroad from Little Rock to Benton. It was also announced that here will be an extension from Benton to Malvern to connect with the Diamond Jo road at Hot Springs, the latter line having been acquired by the Choctaw people some time ago.

## New Power of a Jury.

Fort Smith, Ark., July 20.—Twelve business men constituting a jury in a magistrate's court here declared Coffey Williams not guilty of violating the new anti-gambling law. The defense was that the punishment prescribed by the law was excessive, thereby making it unconstitutional. The jury's deliberations were so short that many were surprised.

## Comptroller Reynolds Dead.

Tallahassee, Fla., July 20.—William H. Reynolds, comptroller of the state of Florida died Friday. He had been president of the senate and was secretary of the constitutional convention. He was a native of Georgia.

## Senator Pugh Improved.

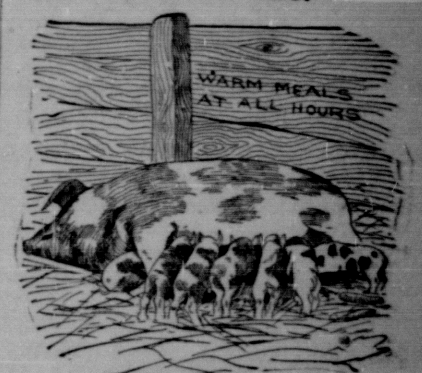

Washington, July 20.—Former Senator Pugh of Alabama, who has been critically ill here, has improved considerably. His physician now believes he has a good chance of recovery.

## Buying Groceries

is a particular business, unless you know by actual experience the Quality of the Goods or the Principles of the Dealer. What you eat is what keeps you alive and there is much to be considered. Good health and bad health are great considerations. Pure, Fresh, Wholesale Groceries conduce to health, longevity and success. It Behoves every man to be careful of what he puts in his stomach. No housekeeper should put on the table anything that she is not sure of. If your Groceries come from THIS HOUSE you can be absolutely sure they are PURE. **Battle Ax Flour** is still in the lead and we are pleasing our customers in prices on Grain, Hay and Feed Stuffs.

## THE DAILY EAGLE.

Entered at the postoffice as second  
Class mail matter.

BY CONNELLY & CARNES.

Per Week, 10c. - - Per Month, 40c.

SUNDAY, JULY 21, 1901.

Two young ladies are now editing and publishing the Bartlett News.

The price of petroleum has been cut in Texas and raised in Indiana and Ohio.

It is said the steel trust has agents in the south employing negroes to take the places of the strikers. In Alabama they have found a good deal of skilled labor. Race riots are now likely to be added to other strike disorders.

The Sampson clique are still endeavoring to rob Schley of the honor of the naval battle of Santiago. Their last dirty attempt was made in the pages of a history intended for the naval academy, and they got called down on it good and hard by the Baltimore American.

Senator Chas. A. Culberson has the thanks of The Eagle for an immense, well mounted wall map of the United States and insular possessions. The map sets out in colors the territory of the original thirteen colonies, and shows the territory acquired since then, from whom and when.

The broom corn market is very unsettled. In the great broom corn section of Illinois, the crop is short; a large amount of stock on storage has been destroyed by fire, and it is estimated that the acreage is smaller than last year. The probability, therefore is, that broom corn and brooms will be dearer than they have been in several years.—Farm and Ranch.

**The Fairest Offer Ever Made**  
To anyone suffering with Dyspepsia, Indigestion, Sour Stomach, Heartburn, take Rex Dyspepsia Tablets. All druggists are authorized by the manufacturers to refund the money in any case they fail to cure. Price 50 cents per package. Remember the name, Rex Dyspepsia Tablets. M. H. James, the leading druggist, Bryan, Texas.

## CRISIS ABOUT REACHED.

Turning Point in the Strike Looked for  
at Any Time.

Pittsburg, July 20.—The steel strike has reached the critical stage and developments are expected that will have important bearing on the great struggle. By Monday night the results of attempts of the combine to resume operations at Wellsville and McKeesport will be known and on the success or failure of this, the outcome of the struggle will greatly depend. So far the contending forces appear to have been watching each other, but the statement from J. P. Morgan, has changed the complexion of the situation. It is now realized the combine will not indulge in any further temporizing and a long struggle may be looked for.

At Wellsville, the company is straining every point to get the plant into operation and latest dispatches from there state they claim they will have a full force at all furnaces in a day or so. It is said they have men imported from Pittsburg and will bring them to work. A large number of railroad tickets from here to Wellsville have been purchased within the last few days, which are reported to be for a new force. At Wellsville, no men have as yet applied but it is reported they are quartered at East Liverpool and will be moved from there by Monday morning.

The strikers at Wellsville are watching all incoming trains and it is now hoped no trouble will take place when the new men arrive. The strikers are said to be restive and what may happen when they see the new men come in to take their places, it is difficult to predict. A high fence surrounds the mill property and car loads of lumber have been taken into the mill presumably for the purpose of housing the new men within the mill.

At McKeesport a force of men are still at work cleaning up Dewees and Wood's plant for early operations. It is said that sheet mills 8 and 9 and the bar mills have been completely overhauled and are ready for resumption at any time. While it is not known positively when work will be started, it is generally believed it is the intention of the management to start in a few days. They have quite a number of men as a nucleus of the force who were refused admission to the Amalgamation association because they worked during the strike last April, and when a start is made it will be with these workmen.

Manager Cooper refused to say when the start will be made, but he added: "When it does come you can bet the mill will be nonunion."

The Amalgamation association officials say they have little fear of the company inducing the men to go back or to successfully resume operations.

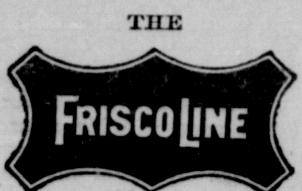

### NOTICE! NOTICE!

I will call on all parties who are indebted to the Bryan Water, Ice Light and Power Co. before the 28th of the present month, and will expect payment in full of all dues. We owe debts that must be paid, and cannot do so unless our patrons pay up. We have been exceedingly indulgent, but we need money now, and must have it, and hope we will not be compelled to resort to other means of collecting.

W. H. Harman, Supt.

## SOUTHERN EXPORTS.

They Make up a Third of Those of  
the Whole Country.

## COTTON IN THE LEAD

The Increase of Export on That Staple  
Over the Preceding Year Ex-  
ceeds Eighty-Nine Million  
Dollars—Other Exports.

Baltimore, July 20.—Of the \$1,400,352,266 worth of domestic merchandise exported from the United States during the fiscal year just closed the cotton of the south represented more than \$313,000,000. The increase in the value of these exports over the preceding year was \$89,588,695. Of this cotton represented \$71,817,413. The Manufacturers' Record points out this week that not only was there this great increase in the value of cotton exports, but that there was an increase by more than 400,000 bales in the quantity exported. These figures are a fair indication of the great part played by the south in the commerce of the country.

When to cotton are added cotton oil and cottonseed cake, lumber, naval stores, phosphate rock, pig iron, steel rails, petroleum, cattle and hogs, breadstuffs and other products of southern origin, it is easy to believe that the complete statistics will show that of the products exported at least one-third were sent by the south, and possibly more than a third passed outward by the southern ports.

While the south exported more than 6,500,000 bales and sent nearly 2,000,000 to northern mills, it kept for its own mills at least 1,400,000 bales, and while there has not been as much activity in new mill undertakings as in the preceding 18 months, mills have been built and still being made for others and for improvements in existing ones.

Among such undertakings are the doubling of the capacity of the Enfield, N. C., Knitting mill; an increase by \$100,000 of the capital of the Nantuxet mills at Spray, N. C., for the purpose of enlarging its building and increasing the number of spindles; the doubling of the Harmony Grove, Ga., mill; the installation of 1000 more spindles in the Strickland cotton mills at Valdosta, Ga., and an increase in the capital stock of the Easley, N. C., cotton mills in order to make improvements, while a survey of the Appomattox river between Petersburg and Farmville, with a view of developing water power squints toward the establishment of more mills in Virginia.

The value of the south's magnificent water powers has received practical recognition in the plans for its utilization in Virginia, the Carolinas, Georgia and Alabama, but there is much of such power still going to waste. When in this connection are considered the latent resources in oil and the immense coal deposits still to be worked, it is obvious that the south will have no shortage in this respect for many centuries. Still the search for petroleum is being pushed with unabated vigor, not only in Texas, Kentucky and West Virginia, but in Florida, Virginia, Tennessee, Alabama and other states.

Other industrial undertakings of importance are as follows:  
Arkansas—A \$100,000 cotton compress at Little Rock, a \$110,000 cotton compress at Helena, a 25 ton ice plant at Bentonville.

Alabama—Twelve new compresses in the northern part of the state, a 10-ton ice plant at Courtland, a stove mill at Hartselle.

Florida—A planing mill and novelty works at Jacksonville, a 100-ton cotton oil mill at Jacksonville.

Georgia—A furniture and trunk factory at Macon, a pottery and firebrick works at Dalton, a mill to manufacture paper from cotton seed hulls at Columbus.

Kentucky—Firebrick works at Fullerton, the organization of a company to build a railroad from Madisonville to Dawson Springs and to develop coal lands along the route.

Mississippi—The installation of additional machinery to the value of \$50,000 in a lumber mill at Ora, the doubling of the capacity of the ice plant at Laurel.

North Carolina—A plant at Thomasville to make machinery for chair and furniture factories. A \$100,000 lumber company at Manchester, a furniture factory at North Wilkesboro, a handle factory at Tryon.

Tennessee—A meat packing and cold storage plant at Knoxville, a flour mill at Ashwood.

Texas—A \$175,000 power house for the Galveston Street Railway company, a machine shop at Lockney, a wood-working factory at La Porte, a flour mill at Whitewright.

Virginia—Development of coal lands in Frederick county, woodworking factory at Norfolk, stove mill at Oriana.

West Virginia—Development of coal mines at Boury and Elkhorn, the erection of a tin plate plant and a steel plant at Clarksburg, a cannery at Charlestown.

### Brewers Strike.

New Orleans, July 20.—One hundred and thirty skilled men in a majority of the breweries here are on a strike. Their fight is principally for recognition of their union. Brewers say their business will not be seriously affected for the present.

Rain is beginning to be needed in the vicinity of Bryan and in other localities in the county.

Levy Battle of the College community attended the district conference at Madisonville the past week.

The Patrick reunion in Leon county will be held next Wednesday, Thursday and Friday and Bryan will be well represented.

Judge Board has been suffering with an injured arm hurt while riding in a wagon that was about to be overturned going down hill.

Sprinkling the streets with oil is said not only to effectively dispose of the dust but also of the mosquitos. A little crude oil would make Main street all right.

R. E. L. Upchurch 'phoned the Eagle from Pankey yesterday that they have had rain, crops are fair and there is not much complaint of boll weevils.

The Bryan Grocery Company have been making some improvements and have fitted up a neat office in the front of the store.

WANTED—Twenty good mule teams on I. & G. N. grade near Wellborn. Will pay \$3.25 per day where parties furnish tools or \$3.00 per day where I furnish tools. Apply to Joe A. Owens, Wellborn, Tex. 206

Prof. J. H. Allen, who attended the Methodist district conference has returned home after traveling through Madison and parts of North Grimes county. He came home with mud on his buggy wheels and says the people have had fine rains and have splendid crops.

There will be a barbecue and basket picnic on the Bryan and Macy road in Capt. Robt. Hudspeth's pasture 12 miles north of Bryan, Thursday, August 8, 1901. Everybody is invited to come and bring well filled basket.

WANTED—Five hundred and thirty-five good straight post oak posts eight and one half feet long delivered on grounds of Central Texas Fair Association. Leave bids at office of Moore & Dyer, Bryan, Texas. Paul Bradley, Chairman Building Committee.

The Ladies Aid Society of the Baptist church will have booths on the fair grounds, from which they will sell different kinds of fancy works, and also refreshments during the Central Texas Fair which will be held in November. 195

Mr. Bird is an artist in his profession and displays rare ability as an impersonator. He is especially fine in tragedy. He was received with hearty applause at every appearance.—Granbury Democrat. 96

The ladies of the Presbyterian church will have cakes on sale at the residence of Mrs. Ed. S. Darden on Saturday, July 20th from 9 a. m. until 5 p. m. 97

Franklin Bros. keep as many as 10 or 12 cattle in the cold storage and use nothing under four days in refrigerator. 200

Three hundred yards of taffeta 25 to 27 inches wide is on sale at Norwood's at 75, 85 and 98 cents per yard. 198

FOR RENT—A neat five room cottage in the southern part of town. Apply to Mrs. Dr. Jas. R. Johnson. tf

Capt. S. M. Darden showed the Eagle reporter a copy of the Palestine Advocate containing two letters written in 1881 and 1882 by Wm. F. Dorsey to Frank Roberts at Palestine. The first of the letters was written from Mesilla, Arizona, and the last from El Paso. The letters give a good description of the country and the movements of troops in that locality. Capt. Darden's name is mentioned in both the letters. He was soldiering with the writer at the time.

### The Deadly Oil Can.

Madisonville, Tex., July 17.—There was a fire in Madison county five miles east of here on July 16th. While cooking dinner a 5-gallon can of oil exploded, burning the residence of Mr. Dave Barrett, a well known citizen of this county. Miss Amanda was burned badly; no chance to live. Mr. Barrett's hand was burned bad by running through the flames to save his daughter and his son Conrad's hand was burned by trying to save house. Nearly all the furniture was saved. The loss of property was about \$550 but the loss of the house would be nothing if the poor girl could be saved.

### Benefit Concert.

Mr. T. H. Bird, a skilled elocutionist, will give a concert of unusual attractiveness at the opera house Monday night, July 22, benefit Baptist church. Mr. Bird will be assisted by about 35 Bryan girls, in a highly spectacular program that is bound to afford a great deal of amusement. Prof. Bird comes highly recommended, and the concert includes much that is laughable, and much that is beautiful and instructive. You cannot afford to miss it. Admission, 25 and 35 cents, children 15 cents. 97

### To Whom it May Concern.

We find upon investigation that some of our patrons turn their water on at 4 or 5 o'clock each evening and permit the water to run until 9 or 10 o'clock at night, and frequently all night, causing a useless and extravagant waste, for which they do not pay and the company cannot afford to lose, and frequently cause a great deal of inconvenience to those who do not abuse their privilege. Some parties waste more water in one night than they pay for a month's service. The rules require the hose to be held when the water is turned on and cut off when through and under no circumstances be permitted to run when not held. We will cut off the service of those who abuse their privilege and no questions will be asked from this date. Call at office and get copy of rules. 99 B. W. I. L. & P. Co.

### QUESTION ANSWERED.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers' and grandmothers' never thought of using anything else for indigestion or Billiousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Get Green's Prize Almanac. For sale by Wilson-Jenkins Drug Co.

To Cure Chills or Malaria in 4 Days, Take Quinoria. All druggists are authorized to refund the money in any case of chills, fever or malaria it fails to cure. Price 50c per package. M. H. James, the leading druggist, Bryan, Texas.

### TEXAS NEWS.

**Victim of His Own Device.**  
Brenham, Tex., July 20.—Dan Bartlett has kept the Central pumping station, two miles east of here, for many years. He lives alone, and when business calls him to town he walks by the way of the Central track. Mr. Bartlett has been very much annoyed lately by having his home broken open and groceries stolen during his absence. His skill as a detective has been fruitlessly used to detect the persons who have been robbing his house, and as a last resort he concluded Thursday evening when business called him away to set a gun. This he did. He was detained in town until a late hour at night, went home hurriedly, forgot all about having set the gun, and unlocked and pulled the door open, which discharged the gun, the whole charge taking effect in his right leg, inflicting a very painful wound.

**Texas Crop Prospects.**  
Austin, July 20.—State Commissioner of Agriculture Johnson says that the crop situation in Texas generally speaking, is very good. In Brown, Coleman and other counties of that section rain is badly needed. The drought has also cut short the corn crop in the black waxy belt, which extends from McLennan county to Paris. The cotton and corn in the Brazos river bottom and adjacent territory are in fine condition, and the prospects for a big yield of both products are very promising.

**Overcome by Well Damp.**  
Hearne, Tex., July 20.—A negro, Robert Chadwick, while being lowered into a well was overcome by well damp. Another negro was lowered into the well to bring the remains to the surface but was overcome and was some time before he revived.

**Killed by Lightning.**  
Troupe, Tex., July 20.—While Nick White, a negro, and his son were cutting saw stocks three miles from Troupe, lightning struck the tree they were cutting, killing the old man instantly. The boy had walked away a few steps and was not injured.

**Accidentally Killed.**  
Paris, Tex., July 20.—Tommy Lyons, 20 years old, the son of a Baptist preacher of this county living a mile east of Garrett's Bluff, near Caddo, I. T., was accidentally shot and killed while hunting by a companion.

**Receiver for a Railroad.**  
Jackson, Miss., July 20.—New Orleans attorneys filed an application in the federal court here for a receiver for the New Orleans and Northwestern road and asking also a foreclosure of a \$2,000,000 mortgage executed in 1890 to the Central Trust company of New York on which \$250,000 is now due. Default was made on the bond in 1898, and the foreclosure is asked for the protection of the bondholders. The road has very little mileage in Mississippi but connects Natchez, Miss., with Rayville, La. The Goulds are recent purchasers of the road and it is thought they are behind these proceedings as the first step in the formal transfer of the property.

**Negroes for Strikers Places.**  
New Orleans, La., July 20.—Two representatives of the steel trust, officially known as the United States Steel corporation from Pittsburgh, are here securing negroes to take the places of the strikers in the Eastern steel mills. They are placing agents in every southern center. A man will be dispatched to Galveston at once to work the Houston and surrounding territory. Fifty negroes were enlisted in this city Friday. They got 25 at Bessemer, Ala., and 15 at Anniston, Ala. The agents are offering flattering prices.

**Over Ninety Thousand Registered.**  
El Reno, O. T., July 20.—When the registration booths closed Friday night 92,599 home seekers had been given slips entitling them to a chance in the drawings. Friday's figures for El Reno were 10,339, making a total of 70,497, while 1447 persons registered at Lawton, bringing the total for that place up to 22,102.

**Death Among the Wires.**  
Dallas, July 20.—Charles Wheeler a lineman in the employ of the Standard Light and Power company, was killed while at work at the top of a 30-foot pole here Friday afternoon. He was with a companion on the pole and was standing on the transformer when his hand came in contact with a wire overhead, carrying a current of 220 or 3000 volts. Death was instantaneous.

**Oil Causes Excitement.**  
Knoxville, July 20.—A report from Friendsville, a little village in Blount county, founded years ago by the Quakers, says the entire people are wildly excited over the finding of oil on a farm. The oil was struck at a depth of 46 feet and is said to be of fine quality. The well is not a gusher, but the oil flows rapidly.

**Causes Unrest.**  
Tien Tsin, July 20.—Considerable unrest is felt here following the resumption by the Chinese of the partial control of the city. The natives are cutting their telegraph lines outside of Tien Tsin and fears of further violence is entertained.

**Died After Being Robbed.**  
Wichita, Kas., July 20.—After being robbed on a train near here, F. R. Smith, an aged man from Bonham, Tex., dropped dead in a crowded coach. The body was taken to Oklahoma City. His wife and daughter were with him.

**Convict Brains a Foreman.**  
Jeffersonville, Ind., July 20.—E. S. McHale, foreman in the shoe department of the state penitentiary here, was fearfully beaten by Lee Kelly, a convict. Kelly brained the foreman with a piece of shattering.

### OFFICERS AMBUSHED.

**Moonshiners Kill Two of a Posse and Badly Wound Another.**  
Nashville, July 20.—A party of revenue officers was ambushed by moonshiners about six miles from Monterey, in Putnam county, at 4 o'clock this morning and two men were killed and one badly wounded.

A posse of six was led by Deputy Collector Bell and as they were creeping along the steep hillside above the illicit still they received an order to throw up their hands. They had barely located the speaker 40 feet below when a deadly volley from eight guns was poured upon them.

Deputy Marshal Thomas Price was instantly killed and possemen Cord and Mackey badly wounded.

The officers returned the fire but the moonshiners made the place so hot that Collector Bell and the survivors retired and carried Mackey with them.

One moonshiner was heard moaning and calling to friends that he had been mortally wounded.

Collector Bell has organized a posse and started to recover the body of Price.

**ANOTHER RECORD BROKEN.**  
Lad Makes a Trip Around the World in Sixty Days.

Chicago, July 20.—Charles Cecil Fitzmorris, the 17-year-old Chicago schoolboy, who was one of three lads sent out by W. R. Hearst, the newspaper man, in an attempt to break the record for a trip around the world, arrived here at 6:55 o'clock this morning in time to break the previous records made by George Francis Train and Nelie Bly. He made the trip of 20,545 miles in exactly 60 days, 13 hours and 29 minutes, winning easily from his competitors sent out from New York and San Francisco. The time given includes delays and stops equal to about six days.

Some of the longer stages of his journey were made as follows: Chicago to New York, 900 miles, 25 hours; New York to Queenstown, 2280 miles, 5 1/2 days; Moscow to Irkutsk, by rail, 3500 miles, nine days; M. Stika to Khabarovsk, by steamer, 1100 miles, seven days; Vladivostok to Yokohama, by steamer, 650 miles, five days; Yokohama to Victoria, by steamer, 4114 miles, 11 days, and Seattle to Chicago, 2300 miles, 3 1/2 days.

**ST. HELENA PRISONERS.**  
Only Seventeen Per Cent Are Boers, the Remainder Are of All Nations.

New York, July 20.—The British steamship Reading, fresh from Ascension and St. Helena is now at Jersey City.

"There are just 4700 Boer prisoners on the island," said the Reading's commander, Captain Fishley, "and of these 17 per cent are Transvaalers and Orange Free Staters. The remaining 83 per cent is made up of other nationalities in this order: Scandinavians, Germans, Italians, a few Russians, Irishmen and even Englishmen, a handful of Scotchmen, a few Americans, a few Greeks, and scoundrels from other nationalities.

"The farmers are complaining because the governor has impressed the surplus labor for work on the breakwater. A large number of Boer prisoners are also employed on the breakwater at five shillings a day. Some do not choose to work, others labor for the farmers and the older prisoners whittle out toys, which they sell.

"General Cronje is also weary of his detention, but says little. I was told that the proportion of native Boers was representative of their entire army."

## "Old Liza"

ful work, are the claims upon which we solicit a share of your business in the future. Thanking those who have favored me in the past and hoping to continue to please them, I am respectfully,

**F. A. LEE.**

DRAY LINE, F. A. Lee, Proprietor. Good drays and polite draymen, prompt and careful work, are the claims upon which we solicit a share of your business in the future. Thanking those who have favored me in the past and hoping to continue to please them, I am respectfully,

## BREAD and CAKES!

....GOOD BREAD AT REASONABLE RATES AT OTTO BOEHME'S....

## Texas Bakery and Boarding House.

The best is the cheapest, Otto Boehme has the best.

East of Standpipe, **BRYAN, TEXAS.**

**Fear the Examination.**  
Washington, July 20.—The only door through which enlisted men of the navy may enter the service as commissioned officers is that by which warrant officers, passing successfully the examination given in substance below, can obtain commissions as ensigns. Applications to take the examination will be received up to July 30. So far only two warrant officers have put in their applications. The hesitancy of the men is said to be due to fear of the examination which a statement given out by the navy department, shows the general scope of the examination, includes a knowledge of naval charts and reckoning, engineering, seamanship, construction of steel vessels and relation of their parts to one another, gunnery, including a description of mechanical electricity and military law.

**Girl Whipped in Court.**  
Kansas City, July 20.—For the first time since the "whipping post" has been established, Justice Walls had a girl whipped in his court here. Before this the lash had been used on boys only. The girl's mother and her lawyer both asked to have the girl whipped rather than sent to jail. Finally the judge yielded and the mother gave her child the best whipping she has had for some time. It was, however, so the mother states, only a forerunner of what was to come. The girl is 12 years old and had stolen \$3.

**Girl Scalped by Machinery.**  
Sedalia, Mo., July 20.—Fannies Annan, a 15-year-old girl employed at the Loeffler-Guenther shoe factory, was literally scalped while at work. She had stooped to pick up a fallen hook when her braided hair caught in the revolving wheels and her head was jerked almost off her shoulders. She was taken to the hospital in a dangerous condition.

**Senator Vest All Right.**  
Sweet Springs, Mo., July 20.—Reports recently printed concerning the state of Senator Vest's health are wholly untrue. The senator is here and is enjoying good health.

Franklin Bros. have not sold out they are still doing business at the same places, and their cold storage meats are in the lead and gaining the trade.
